## Staying safe online

October is National Cybersecurity Awareness Month which continues to play a role in raising awareness of the online threats faced by organisations and individuals alike.

### Advice from social media platforms

Social media is a great way to stay in touch with family, friends and keep up to date on the latest news. However, it's important to know how to manage the security and privacy settings on your accounts so that your personal information stays personal. Here are some helpful privacy tips from your favourite social media platforms:

**Facebook:** basic privacy settings and tools

**Twitter:** how to protect and unprotect your tweets

**YouTube:** privacy and safety

**Instagram:** privacy settings and information

**LinkedIn:** account and privacy settings overview

**Snapchat:** privacy settings

### Double down on privacy

Did you know you can use two-factor authentication to protect your social media accounts? 'Turnon2fa' contains up-to-date instructions on how to set up two-factor authentication across popular online services such as Instagram, Snapchat, Twitter and Facebook.
